MEMORANDUM FOR DISTRIBUTION

SUBJECT: Software Process Improvement Initiative (SPII) "Role Based Right Fit Training Technical Report"

Under my direction, the SPII reviewed existing training courses available to acquisition professionals supporting Software Intensive Systems. The assessment by the Human Resource team raised several concerns as well as interpreted deficiencies with the Knowledge, Skills and Abilities (KSAs) for Software Acquisition Management and courses of corresponding educational and training requirements. As a result we have engaged the services and OSD along with DAU to start assessment of KSA to training for adjudication. The report, which can be accessed at http://acquisition.navy.mil/organizations/dasns/rda_cheng will serve as Naval input to OSD sponsored reviews of software acquisition management competencies for six acquisition disciplines (Program Management, Contracting, Acquisition Logistics, Systems & Software Engineering, and Legal) being made available for your information.

Delores M. Etter
